

Insight and efficiency that boost competitive edge

Project-oriented manufacturing businesses face daily challenges around quality and compliance expectations, competitive pricing and tight delivery schedules. With full control of your resources, costs and processes across your extended value chain, you can optimize every project delivery to increase profitability, control cash-flow and build long-term customer relationships.

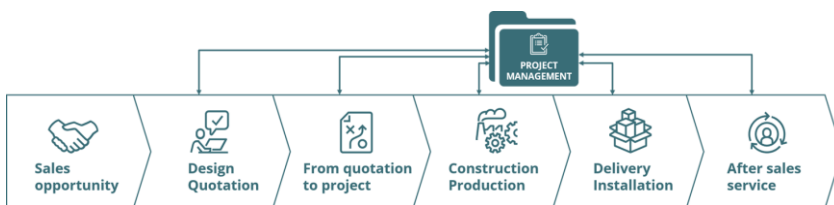

Cepheo Project Industries Solution extends standard Business Central functionality with key capabilities to help you:

Give project managers full control - with central cockpits that show the big picture and all the details.

Run flexible, effective workflow - that enables leaner processes and more profitable projects.

Deliver on-time, profitable projects - that meet compliance goals, budget targets and customer expectations.

Essential project industry capabilities across your value-chain

Optimize your end-to-end processes from opportunity and quotation to project delivery and after sales service - all supported by strong project management, collaboration and reporting capabilities that help optimize cash-flow and profitability.

Extends standard Dynamics capabilities:

- A project cockpit with detailed status compared to budgets, expectations and historical data points
- A daily status on invoices, time and material usage, margins, deviations and more
- Resource planning across projects, production and service activities
- Contract management for customers and suppliers
- Tight control of sub-contractors, production runs and purchasing in a Supply Chain Cockpit
- Consolidated financial information across multiple projects with Deals
- Control of additional work in projects with Variation Orders

Tried and tested across Scandinavia:

- 30+ years of project industry experience
- More than 1500 daily users
- For construction, machinery, oil & gas, manufacturing and energy industries

Microsoft solution compatibility:

- Microsoft Dynamics 365 Business Central (online and on premise)

Cepheo empowers businesses to adapt and succeed in a changing world.
